

COVID -19 Statement

E-Z-Hook is open and we do not anticipate order delays or business closure at this time. As a manufacturer of medical, energy and other essential industry components we are considered an essential business by the State of California. We are monitoring the CDC as well as federal and state recommendations for health safety.

We do not anticipate shipment delays due to our manufacturing processes; however, we recognize that certain factors are out of our control. If there are changes which affect our ability to meet our clients' needs, we will do our best to immediately alert customers.

E-Z-Hook is committed to servicing our customers, protecting our employees, and to do our part in preventing transmission of COVID-19.

- All non-essential customer and vendor visits are restricted at this time
- We educated our workforce by supplying recommendations from the CDC
- We have increased workplace cleaning, and implemented additional disinfection procedures
- We are in ongoing communication with our raw material suppliers to mitigate supply chain disruption and procure high volume raw materials
- Social distancing measures have been implemented in the manufacturing area

Thank you to our loyal customers for your continued support as we navigate this challenging time. To all of the families affected by this event, our thoughts are with you.

Sincerely,

Anna-Marie Grizzell
President
