

# Custom Capabilities

Our goal is to be your single source for test and measurement products and services.

Off-the-shelf test leads that work with digital multimeters (DMM's) or other compatible equipment

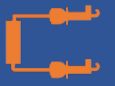

Made in the USA - E-Z-Hook's test assemblies made in California

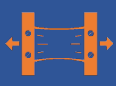

Custom hook bends, plating specifications, & spring tension

Custom packaging & labels

Custom cable and lead lengths and unique color-coded combinations

Tensile testing machine for checking strength of connections and wire

Connectors of all types: hooks, probes, alligator clips, harness boards, pins, plugs, sockets, and more

Coaxial cable and test lead wire cutter and stripper

Custom single or multi-lead assemblies using clients' preferred E-Z-Hook or third-party connectors

Heat & Chemical Resistant Solutions (silicone wire, copper contacts, etc.)

Wire and cable spools 100-1000 ft (custom lengths available) in various insulations, wire gauges, and colors

ROHS compliant products

Prototyping: engineering team will bring your ideas to life - "Art to Part"

No order minimum & fast domestic and international shipping (with drop shipping upon request)

XRF analysis: x-ray analysis of material composition and chemistry to ensure ROHS & REACH compliance

Certifications, test reports, and data sheets as needed
